Current Approved Excipient Specification ES-2026-03

Halden Therapeutics, Inc. Quality Assurance. Effective date: 2026-03-01. Supersedes ES-2024-11.

This document defines the approved excipient grades for each commercial product. Any use of a grade not listed here requires a change control and, where applicable, a regulatory variation.

Product HT-101

Excipient	Approved grade
Microcrystalline cellulose	Avicel PH-102, NF
Croscarmellose sodium	NF
Magnesium stearate	NF, vegetable source

Product HT-204

Excipient	Approved grade
Microcrystalline cellulose	Avicel PH-102, NF
Lactose monohydrate	Fast-Flo 316, NF
Magnesium stearate	NF, vegetable source

Product HT-317

Excipient	Approved grade
Pregelatinized starch	Starch 1500, NF
Colloidal silicon dioxide	NF
Magnesium stearate	NF, vegetable source

Product HT-422

Excipient	Approved grade
Lactose	Anhydrous, direct compression grade, NF
Povidone	K30
Sodium stearyl fumarate	NF

Product HT-509

Excipient	Approved grade
Polysorbate 80	Low peroxide grade, NF
Sucralose	NF
Sodium benzoate	NF

Product HT-611

Excipient	Approved grade
Mannitol	Spray-dried, USP
Crospovidone	NF
Magnesium stearate	NF
